## 2023 – The year that was

As we embark on the next phase in our company's journey, I am honored to be the new Chief Executive Officer following the unfortunate passing of our beloved Larry Qua.

While our hearts remain heavy with the loss of a visionary leader, we are committed to preserving and advancing the legacy of sustainability that he so passionately championed for decades.

Larry Qua's dedication to sustainability laid the foundation for our company's commitment to Environmental, Social, and Governance principles. It is with humility and determination that I assure of our continuing collective effort towards a sustainable future.

**Raymond Ma Qua**  
President/CEO

Our team of dedicated professionals share a common goal: to build on the achievements of the past and drive our sustainability thrust to new heights and create a lasting positive impact on the world.

New initiatives, partnerships, and innovations are in place to demonstrate our dedication to sustainability. We will uphold our responsibility to our shareholders, ensuring that our actions align with the highest ethical standards.

# THE COMPANY

**Ionics Inc.** is a leading technology group of companies engaged in product design cum electronics manufacturing, precision-engineered plastic injection molding, core-technology venture capital investment, property holdings and management.

The company traces its beginning in semiconductor and hybrid assembly as one of the pioneers and the only firm to remain standing for more than three decades.

It has the distinction of being named one of the best 300 and the best 200 global firms by Forbes for two consecutive years. It is listed in the Philippine Stock Exchange under the ticker of ION since 1995.

**Ionics Inc.** was incorporated in 1982 as Ionics Circuits, Inc. which commenced its consignment manufacturing in 1987. Since then, the company has diversified to printed circuit board assembly and packaging of finished products or box-build and eventually to electronics manufacturing services (EMS).

In 1999, Ionics Circuits spun off its EMS to a wholly owned subsidiary, Ionics EMS Inc. which listed in the Singapore Stock Exchange the following year, in 2000.

Accordingly, Ionics Circuits amended its primary purpose to become a holding company as Ionics, Inc.

**Ionics, Inc.** subsidiaries includes Ionics Properties Inc., Ionics EMS. Inc., iOmni Precision Inc., Ionics Circuits, Ltd., Ionics Product Solutions Inc.

## What we can provide...

Ionics EMS, Inc. addresses any project to the Manufacturing Process regardless of its stage of development.

- Consultancy: Our in-house ODM capability can start from project concept.
- Specification: We can build to print once all documents needed are given by the customer
- NPI: Ionics EMS, Inc. can work directly with your prototype house for a quick turnaround from NPI through full Mass Production.
- Existing Product: Our team can pick up and continue an ongoing production.
- Product Design Customization
- New Product Development Consultation

### Mass Production

- Full solutions with an extensive set of tools for PCBA and Box Build
- Skilled engineering and production teams
- Cutting-edge equipment with advanced technology capabilities

### Lifecycle Management Solutions

- Design stage
- Quotation or looking for assistance in next-generation production
- Program Management

Ionics EMS offers the following design services:

1. **Scoping** (Product Specifications, Estimated Project Timeline, Estimated Unit Cost)
2. **New Product Development** (from product concept to mass production)
3. **Value Engineering** (for customers with existing product design)
4. **Schematic Drawing & PCB Design Layout Services**
5. **Industrial Design Services**
6. **Software Development Services**
7. **Test Development Services**
8. **Product Regulatory Compliance**

Ionics EMS offers the following supply chain services:

### Smart Supply Chain

- Strategic Sourcing and Procurement Program
- Supplier and Material Management Program
- Manufacturing Planning and Control
- Inventory Control
- In-bound and Out-bound Logistics
- RMA

### Kitting and Logistics

- Configuration
- Kitting
- Dropship to end customers
- Global Logistics Support

### RMA

- Warranty Management

# SUPPLY CHAIN MANAGEMENT

**IONICS Inc.** extends its quality management systems to the supply chain by introducing controls on externally provided products and services. Supplier management focuses on our aim to build healthy partnership that promotes smooth supply flow of quality components parts at the right time that we need them to meet customer requirements.

To make sure that our suppliers comply with our requirements, we conduct audits to check and monitor their management system's integrity. This also helps them initiate improvement and thus, work out on quality improvement, shorter lead times and cost reduction. As partners, we make sure that our communication lines are open to strengthen coordination, efficient information flow and promote on-time dissemination.

Equipped with the right people, we strengthen the supply chain through a robust procurement and sourcing program, manufacturing controls and responsive logistics system.

# ENVIRONMENT

As an ISO 14001:2015 certified organization, we deliver programs that support a greener environment. It is part of our advocacy to establish an environment friendly business operation, maintained by our people through well-thought planning and effective execution of our environmental protection programs.

We create programs that are environmentally sensitive and are focused on minimizing our waste generation and proper waste management. We create our Objectives, Targets and Programs for the environment aligned with applicable compliance obligations and, of course, our internal commitments.

This OTP summarizes our policy, strategy and pledge adhering to environmental protection by reducing waste and emissions, decreasing our use of natural resources, prevention of pollution, and recycling waste materials while complying to applicable statutory and regulatory requirements. This environmental approach can be applied not only to our operations, but also to support functions.

Energy Conservation Committee proactively monitors our utility consumption and analyzes data to better improve our activities. With the help of the top management, we look forward that this initiative will soon bear positive results on our promotion of environmental protection and conservation.
